

## Where to see and hear Guernésiais

We recommend that the best, most sociable and enjoyable way to find out about the language is to meet someone who speaks it. We recommend that you get in touch with a member of '**Ley Bohti**' ('the buddies'). (There are many different accents in Guernésiais but some speakers pronounce 'bohti' as rhyming with 'potty'). This is a network set up by the Commission for songwriters to meet Guernésiais speakers. Get in touch with Jo on 747264 or [josephine.dowding@gov.gg](mailto:josephine.dowding@gov.gg) and she will put you in touch with a member of Ley Bohti. Also look out for our Ley Bohti events on the calendar.

There are many online sites, books and papers written about Guernésiais and we do not intend to list them here (for a detailed bibliography, visit [www.language.gg](http://www.language.gg) and choose 'articles'). This is just a taster of a list, in no particular order.
